## EMINENT GOLD CORP.

Notes to Condensed Consolidated Interim Financial Statements

For the three months ended March 31, 2025

(Unaudited - Expressed in Canadian dollars)

### 1. Nature and continuance of operations and going concern

Eminent Gold Corp. (formerly Navy Resources Corp.) (the “Company”) was incorporated in the province of British Columbia on May 5, 2011. The Company is engaged in the exploration and evaluation of resource properties. The Company’s shares are traded on the TSX Venture Exchange (the “Exchange”) under the symbol “EMNT”.

These financial statements have been prepared on a going concern basis, which assumes that the Company will continue in operation for the foreseeable future and will be able to realize its assets and settle its liabilities in the normal course of business. At March 31, 2025, the Company had cash of \$98,881 (December 31, 2024 - \$1,080,821) and its current liabilities exceed its current assets by \$1,055,579 (December 31, 2024 – working capital of \$634,288). The Company currently has no active business and is not generating any revenues. It has incurred losses and negative cash flows from operations since inception and had an accumulated deficit of \$11,022,244 as at March 31, 2025 (December 31, 2024 - \$10,465,351). Whether and when the Company can obtain profitability and positive cash flows from operations is uncertain. These uncertainties cast significant doubt on the ability of the Company to continue as a going concern.

The Company’s ability to continue its operations is dependent on its success in raising equity through share issuances, suitable debt financing and/or other financing arrangements. While the Company has been successful in raising equity in the past, there can be no guarantee that it will be able to raise sufficient funds to fund its activities and general and administrative costs in the next twelve months and in the future. These financial statements do not give effect to the required adjustments to the carrying amounts and classification of assets and liabilities should the Company be unable to continue as a going concern. Such adjustments could be material.

### 2. Material accounting policy information

These financial statements have been prepared in accordance with International Accounting Standard (“IAS”) 34, *Interim Financial Reporting*, as issued by the International Accounting Standards Board (“IASB”). Accordingly, certain information and footnote disclosure normally included in annual financial statements prepared in accordance with International Financial Reporting Standards (“IFRS”) have been omitted or condensed, and therefore these financial statements should be read in conjunction with the Company’s December 31, 2024 audited annual consolidated financial statements and the notes to such financial statements.

These financial statements are based on the IFRS issued and effective as of May 30, 2025, the date these financial statements were authorized for issuance by the Company’s Board of Directors, and follow the same accounting policies and methods of computation as the most recent annual financial statements, except for the impact of the changes in accounting policies disclosed below:

#### *Hot Springs Property*

On April 20, 2020 (the "effective date"), the Company entered into an option agreement to acquire a 100% interest in the Hot Springs Property in the Humboldt County of Nevada, USA. In order to acquire the option, the Company is required to make payments of USD \$136,140, issue 1,650,000 common shares and make a final balloon payment of USD\$1,500,000 on the fifth anniversary. The balloon payment may be made in cash or stock, at the Company's discretion. The optionor maintains a 2% net smelter royalty which may be purchased by the Company in 0.1% increments for USD\$100,000 per each 0.1% increment to a maximum of 1% for USD\$1,000,000.

During the year ended December 31, 2020, the Company staked additional claims adjacent to the property subject to the option terms at a cost of \$51,639.

On April 19, 2023, the Company amended the option agreement to acquire a 100% interest in the Hot Spring Property whereby the cash payment initially due on the third anniversary was increased by USD\$1,250 and due no later than October 1, 2023 (paid).

On April 17, 2024, the Company entered into a second amending agreement to acquire 100% interest in the Hot Spring Property whereby the cash payment initially due on the fourth anniversary was increased by USD\$2,500 and due no later than June 21, 2024.

A summary of payments is outlined below:

Latest Payment Date	Cash (USD)		Shares	Fair value of shares issued	Balloon payment (USD)

<b>Total</b>	<b>\$139,890</b>	<b>-</b>	<b>1,650,000</b>	<b>-</b>	<b>\$1,500,000</b>

#### *Gilbert South*

On October 27, 2023, the Company amended the Gilbert South option agreement to a purchase agreement whereby the Company acquired a 100% in the property in exchange for 350,000 common shares (issued with a fair value of \$82,850 (Note 5)). An additional 200,000 common shares will be issued when the Company initiates a drill program. The Timberline claims are currently subject to a 3% net smelter return royalty, the Nevada Select claims are currently subject to a 2% net smelter return royalty, and the GL claims are currently subject to a 2.25% net smelter return royalty. The Company shall have the option and right to repurchase 1% of the GL royalty for \$1 million (U.S.). The Seller shall have the option to buy down 1% of the Timberline net smelter return for \$1.5 million (U.S.).

#### *Celts*

On February 4, 2025, the Company closed the acquisition of the Celts Projects in Nevada, USA. Pursuant to the purchase agreement entered into on December 12, 2024, the Company: (i) paid the an aggregate of USD\$30,000 in cash and issued 145,384 common shares at a value of USD\$45,000. The common shares issued at closing are subject to a statutory hold period under applicable securities laws, expiring on June 12, 2025. Additionally, on or before August 1, 2025, the Company will either pay to the sellers an aggregate of USD\$325,000 in cash or issue to the sellers a number of common shares having an aggregate value of USD\$325,000 at a price per common share equal to the volume-weighted average price of the common shares on the TSX Venture Exchange for the five trading days immediately prior to the issuance. Furthermore, in connection with the purchase agreement, the Company entered into royalty agreements whereby the Company granted to the counterparties an aggregate 3-per-cent NSR royalty in respect of the Celts project, including any future claims staked by the Company within one kilometre of the Celts project (the area of interest), and an aggregate 1.5-per-cent NSR royalty in respect of certain claims within the area of interest owned by a certain third party arm's length to the Company, if the Company ever acquires such claims. Pursuant to the terms of each royalty agreement, the Company may reduce the NSR royalty by one-sixth in exchange for a cash payment of \$750,000 (U.S.), thereby entitling the Company to reduce the NSR royalty by an aggregate of one-third (that is, from an aggregate of 3 per cent of net smelter returns to an aggregate of 2 per cent of net smelter returns) in exchange for an aggregate cash payment of \$1.5-million (U.S.). The Company also paid a cash finder's fee of \$10,000 in connection with the acquisition.

#### **(a) Fair values**

The fair values of cash and accounts payable approximate their carrying values due to the short-term to maturities of these financial instruments.

Financial instruments measured at fair value are classified into one of three levels in the fair value hierarchy according to the relative reliability of the inputs used to estimate the fair values. The three levels of the fair value hierarchy are:

- Level 1 – Unadjusted quoted prices in active markets for identical assets or liabilities;
- Level 2 – Inputs other than quoted prices that are observable for the asset or liability either directly or indirectly; and
- Level 3 – Inputs that are not based on observable market data.

The Company's cash is measured at level 1.

#### **(b) Interest rate risk**

Interest rate risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company is not exposed to interest rate risk.

#### **(c) Credit risk**

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss. The Company's primary exposure to credit risk is in

its cash. The risk in cash is managed through the use of a major financial institution which has a high credit quality as determined by rating agencies. Credit risk is assessed as low.

(d) Foreign exchange rate risk

Foreign exchange risk is the risk that the fair values of future cash flows of a financial instrument will fluctuate because they are denominated in currencies that differ from the respective functional currency. The Company has operations in the USA and Canada; however, its net monetary position in US dollars is minimal and therefore is not exposed to significant foreign exchange risk.

(e) Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they become due. The Company requires funds to finance its business development activities. In addition, the Company needs to raise equity financing to carry out its exploration programs. There is no assurance that financing will be available or, if available, that such financings will be on terms acceptable to the Company. Liquidity risk is assessed as high.

(f) Price risk

The Company is exposed to price risk with respect to commodity prices. The Company's ability to raise capital to fund exploration and development activities is subject to risks associated with fluctuations in the market price of commodities.

### **8. Capital management**

The Company's capital structure consists of cash and share capital. The Company manages its capital structure and makes adjustments to it, based on the funds available to the Company, in order to support acquisition and exploration of resource properties. The Board of Directors does not establish quantitative return on capital criteria for management, but rather relies on the expertise of the Company's management to sustain future development of the business. The Company is dependent on external financing to fund its activities. In order to carry out exploration and pay for administrative costs, the Company will spend its existing working capital and raise additional amounts as needed. The Company will continue to assess new exploration and evaluation assets and seek to acquire interests in properties if it feels there is sufficient geologic or economic potential and if it has adequate financial resources to do so. Management reviews its capital management approach on an ongoing basis and believes that this approach, given the relative size of the Company, is reasonable. There were no changes in the Company's approach to capital management since inception. The Company is not subject to externally imposed capital requirements.
